

## OFFICER, THEY'RE IN AGAIN

Radicals are Said to be Planning May Day Demonstrations Tomorrow.

(INTERNATIONAL NEWS SERVICE) WASHINGTON April 29.—Demonstrations by extremists and advocates of "direct action" are planned for all of the large industrial centers of the U. S. on May Day, Saturday, according to officials of the department of justice.

Information has been laid before the department tending to show that an "international labor" day movement is

under way for demonstrations not only in the U. S. but in Europe. Atty. Gen. Palmer several weeks ago stated that he had information that the May Day strikes were being planned and officials of the department of justice stated this afternoon that since that time agents of the department have secured a considerable quantity of literature urging all extremists to participate in a May Day demonstration.

The department of justice is taking every precaution to guard against any demonstrations which may be illegal, it was stated. Large numbers of known sympathizers of extremists and those endorsing extremist doctrines are under surveillance and will be carefully watched. Information laid before the department of justice tends to show that the demonstrations have been called for by organizations which have been the subject of raids by justice agents.

A copy of the paper of the Communist labor party has come to the attention of the department of justice which urges "Let us lay down tools on that day to show our determination to fight and our power to win."

## THRIFTY HUNS BURY GOLD IN GARDENS

(INTERNATIONAL NEWS SERVICE) BERLIN.—The stocking the toe of a slipper and the national banks of Germany are continuing to lose clients to the new safety deposit vaults which are being dug in Berlin's gardens.

The rapidly lowering value of the mark has caused people to pay exorbitant prices for silver or gold currency, no matter what nation it represents. The metal money is not put in the bank, but is hoarded in some secret hiding place.

The government has made illegal the sale of silver or gold coin to anyone but one of the regular banks in order to stop the burying of Germany's metal reserve. Drastic measures have failed, and even the arrest of 5500 money changers in the raids of a single day in Berlin have not discouraged the people who are digging a hole in the ground to provide for a rainy day.
